

# Act4Outlook

## "Error 1606. Could not access network location Plugins" while attempting to install Act4Outlook

If you receive the error "Error 1606. Could not access network location Plugins" while attempting to install Act4Outlook, it is likely that certain Act! registry keys needed for the installation might be missing or corrupted.

## Resolution

- Please uninstall Act, reboot the computer, and re-install Act!, which should re-create all missing registry keys on the system.
- Attempt Act4Outlook installation once again.
